Captures Data that can be used for creating CONTEXT Based Services

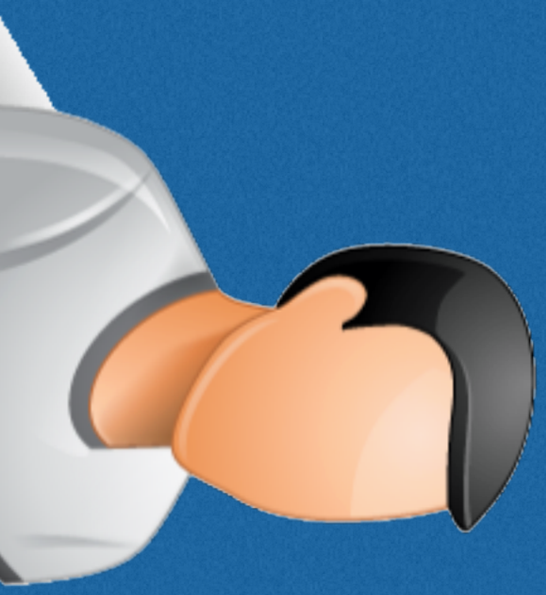
FUTURE

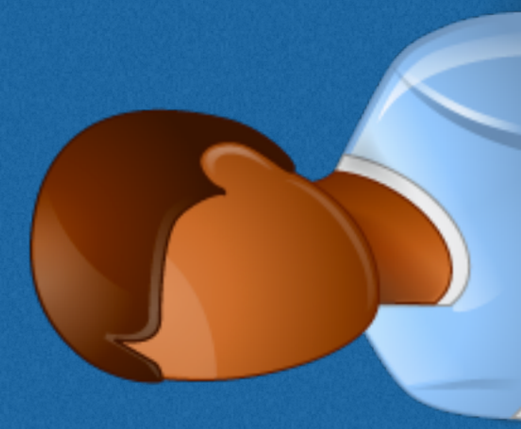
My Take on a Possible

FUTURE

My Take on a Possible

FUTURE





USE CONTEXT TO:

ENHANCE PERSONAL WELL-BEING

USE CONTEXT TO:

ENHANCE PERSONAL WELL-BEING

Identify your mood, your health, your needs and help improve them

USE CONTEXT TO:

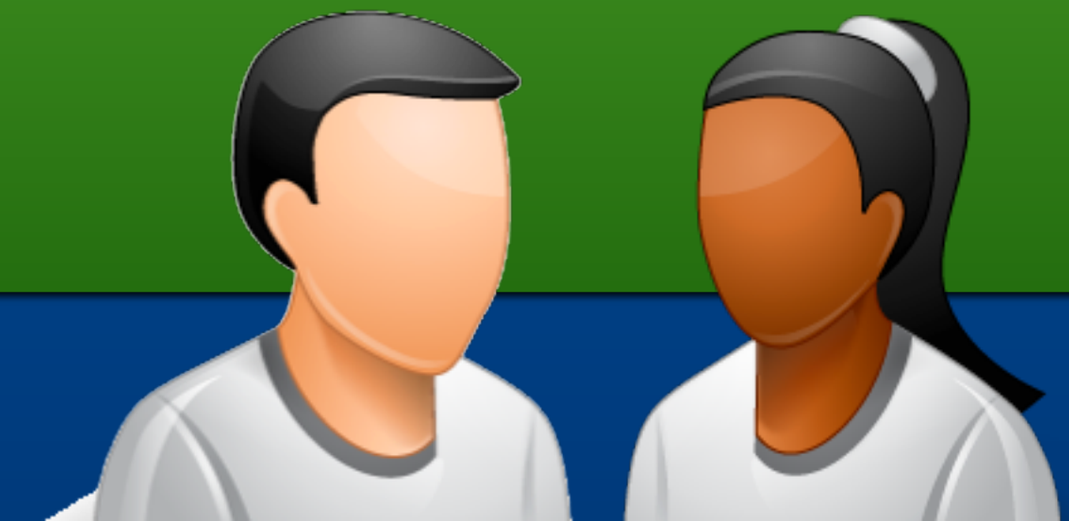
ENHANCE PERSONAL WELL-BEING

How do we Identify mood, health, needs?

How do we help to improve them?

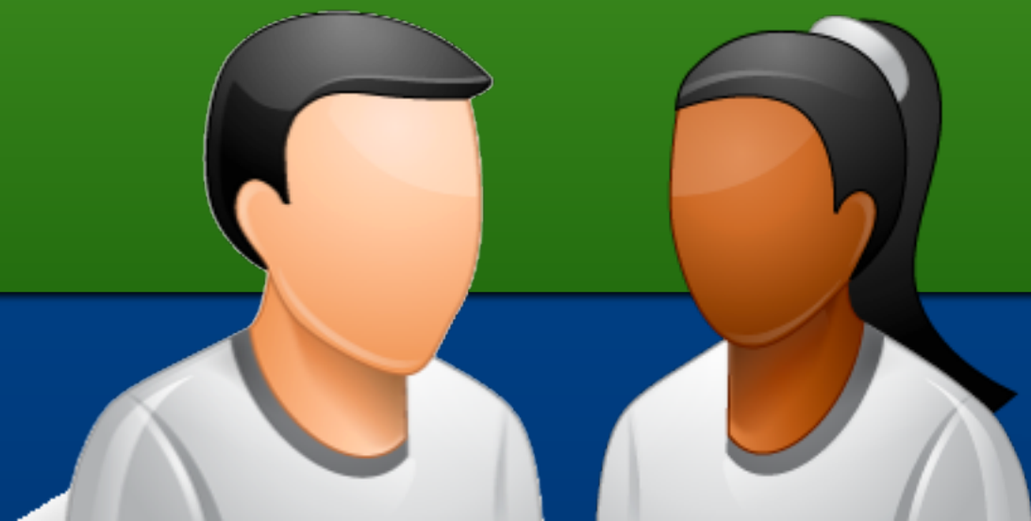
USE CONTEXT TO:

ENHANCE SOCIAL RELATIONSHIPS



USE CONTEXT TO:

Increasingly, we are ALONE TOGETHER*



*: Sherry Turkle, MIT

USE CONTEXT TO:

ie

ENHANCE SOCIAL RELATIONSHIPS

Identify close friends and find opportunities for physical meetings

USE CONTEXT TO:

2. ENHANCE SOCIAL RELATIONSHIPS

How do we identify close friends?

How do we find opportunities for physical meetings?

How do we create the meetings?

USE CONTEXT TO:

ENHANCE COMMUNITY WELL-BEING

USE CONTEXT TO:

ENHANCE COMMUNITY WELL-BEING

Identify communal needs and help take care of them

META-Context

USE CONTEXT TO:

ENHANCE COMMUNITY WELL-BEING

How do we identify communal needs?

Who decides?

How do we help take care of them?

Conclusions

- Context based Computing is not new
- Mobile technology puts processing power and sensors in our *pockets*
- Cloud Computing puts large scale processing into our *products*
- Today: experimentation with the first real mobile context based services
- Tomorrow: maturity leads to interacting with deeper and more meaningful contexts

It is more than figuring out how to sell more ads

It has the potential to improve the lives of individuals, groups and communities!

It looks like it will be very INTERESTÍNG!

BON VOYAGE !
