

Dr. Silvia Figueira

Dr. Silvia Figueira received her B.S. and M.S. degrees from the Federal University of Rio de Janeiro (UFRJ), Brazil, and her Ph.D. degree in Computer Science from the University of California, San Diego. Currently, she is the Regis and Dianne McKenna Professor and Chair of the Computer Science and Engineering Department at Santa Clara University, in California. Her current research focuses on technology for social impact and sustainable development. Her efforts have led to the creation of the Global Digital Transformation Clinic, through which she advises students working on mobile applications for low-resource organizations. She has published over 80 papers and has established collaborations with both companies in Silicon Valley and nonprofit organizations and social enterprises all over the world.
